

Your Lighting Problems Solved

ULTIMATE SOLUTION TO CONVERT TO LED IN COMPLEX CEILING ENVIRONMENTS

- A made-to-measure frame and lens eliminated the concern for air flow issues
- Compatible with Dali and Lutron lighting control systems
- Lutron Wireless controls interfaces include Athena (AWN) and Vive
- Supported wired control systems include: 0-10V, DALI2, Line Voltage Dimming (LVD) and Lutron's EcoSystem and 3-Wire
- Existing Housing or Grid Ceiling remains - Door Kit connects to existing infrastructure
- Significant labor savings due to quick and easy install
- Less mess – no cutting into ceiling, limited fixture scrap
- Thousands of fixtures designed, built and installed across multiple high-profile locations
