

WHAT WE DO

Solera Solar Lighting offers a smart, sustainable way to brighten outdoor spaces. It reduces energy costs, minimizes environmental impact, and operates independently of the power grid, making it reliable even during outages. From pathways and parking areas to signage and recreational spaces, solar lighting enhances safety, visibility, and aesthetics while supporting long-term savings and eco-friendly practices.

RELIABLE ILLUMINATION – Bright, consistent lighting for a variety of applications

COST SAVINGS – No trenching, wiring or ongoing electricity bills

EASY INSTALLATION – Quick setup with minimal disruption to the built environment

MULTIPLE FIXTURE OPTIONS – Solar fixtures for any application

Whether you're upgrading existing facilities or planning new projects, Solera Solar Lighting is the smart choice for sustainability and safety.
