

Solera

SOLAR LIGHTING™

welcome to a solar city

Light Efficient Design

...what direction should the solar panel be facing to achieve peak performance?

this is determined by your geographic location — for example, in the northern hemisphere a south facing solar panel is ideal

...how can I extend the battery life of my fixture?

many of our solar fixtures have operating modes such as motion sensing which will help optimize battery performance

...where should I put my new solar light?

these lights are completely off-grid, so you can put them anywhere you need light

...is it going to take a long time to install my light?

not at all, no wiring or trenching means a quick & easy installation

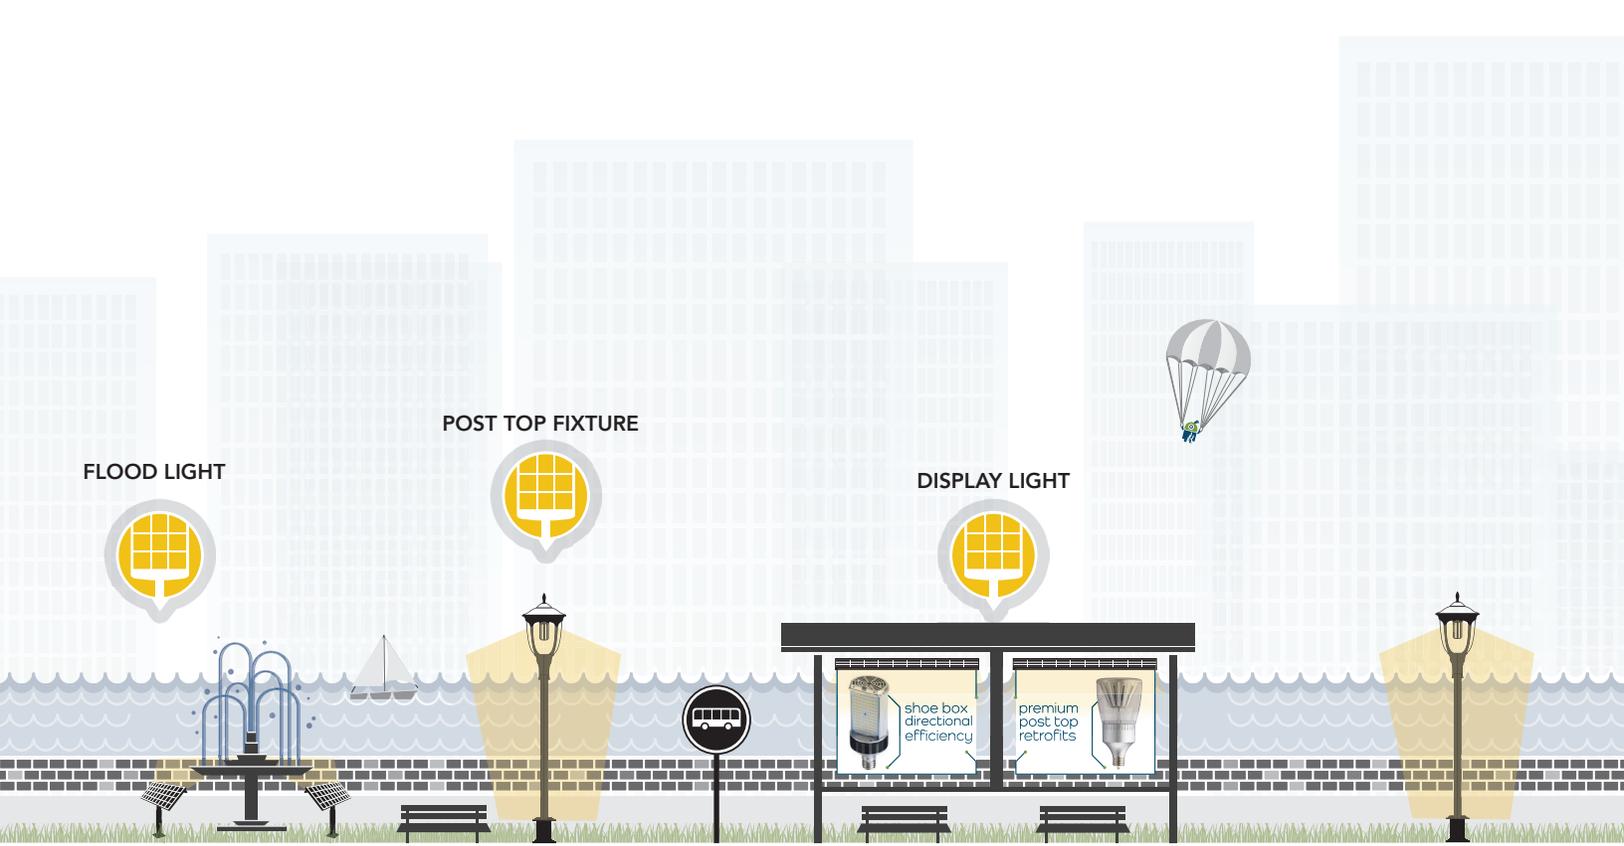

- All-in-one design, the solar panel and battery are built right into the LED fixture
- No need for trenching or wiring, this fixture does not connect to any power feed
- Long life battery lasts multiple nights with a one day charge

WALL PACK | RP-SWL
 7W COMPARES TO 50W HALOGEN
 15W COMPARES TO 100W HALOGEN

AREA LIGHT | RP-SAL
 8W COMPARES TO 70W HID
 30W COMPARES TO 250W HID

FLOOD LIGHT

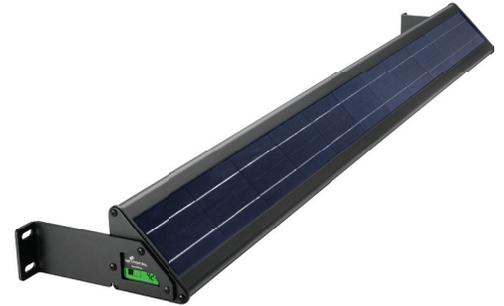

POST TOP FIXTURE

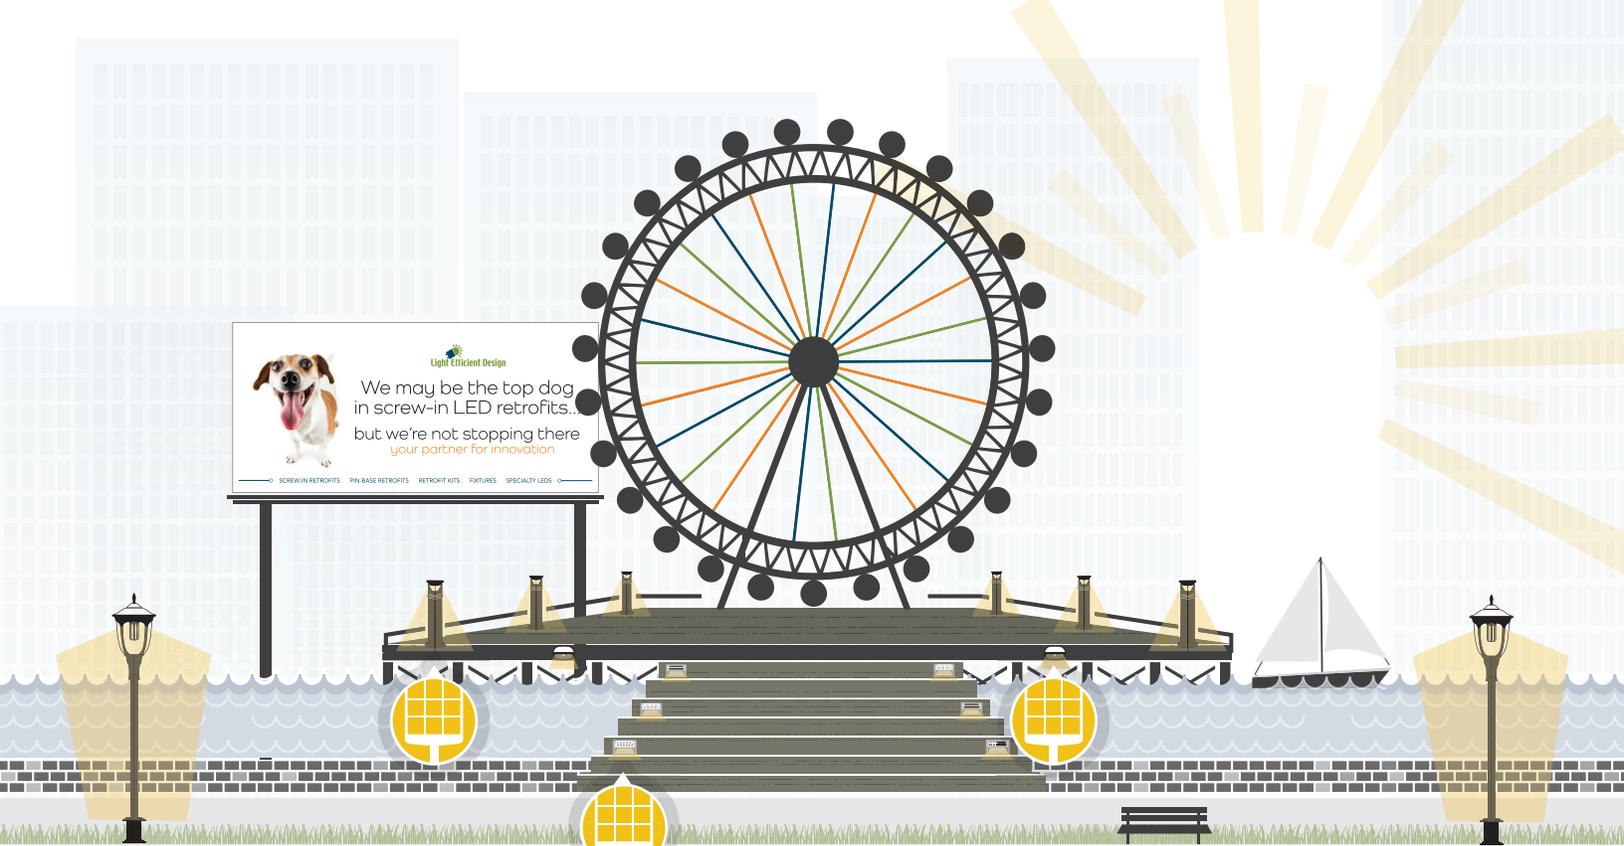

DISPLAY LIGHT

FLOOD LIGHT | RP-SFL
20W COMPARES TO 150W HID

POST TOP FIXTURE | RP-SPT
20W COMPARES TO 150W HID

DISPLAY LIGHT | RP-SDL
20W COMPARES TO 150W HID

BOLLARD FIXTURE

STEP LIGHT

WALL MOUNT LIGHT

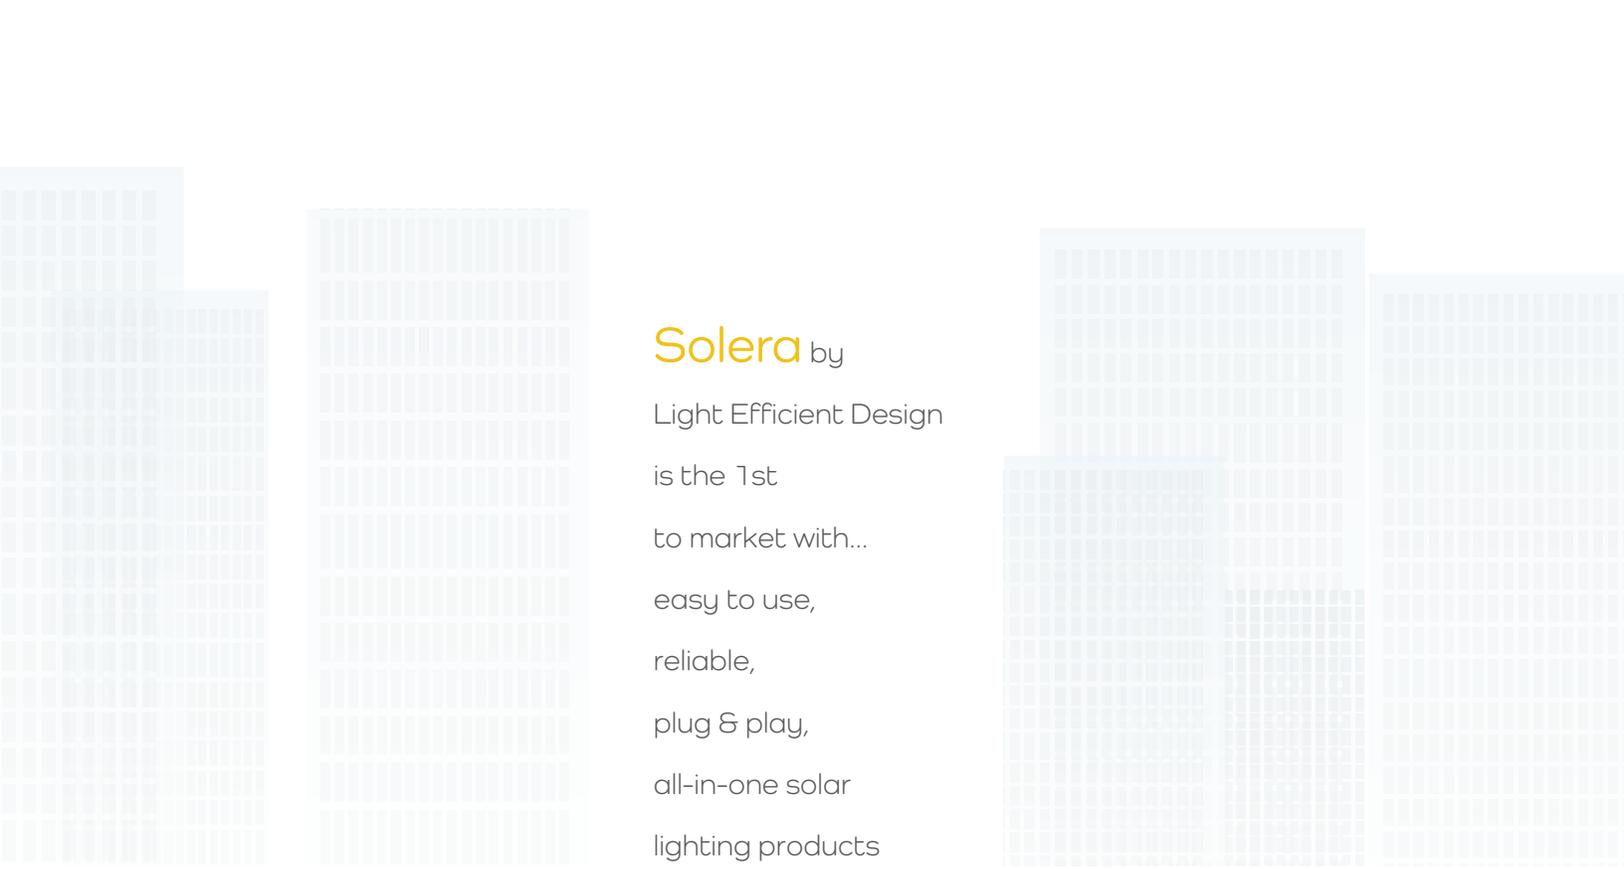

BOLLARD FIXTURE | RP-SBL
2W COMPARES TO 30W HALOGEN

STEP LIGHT | RP-SSL
<1W COMPARES TO 20W HALOGEN

WALL MOUNT LIGHT | RP-SML
4W COMPARES TO 35W HALOGEN

- Fixture automatically turns 'on' at night
- Highly efficient solar panel collects sunlight to charge battery
- Classic designs help fixture fit seamlessly in any environment
