SOLAR FLOOD LIGHT

DISTRIBUTOR

CAPITAL ELECTRIC
UPPER MARLBORO, MD

MFG. REPRESENTATIVE

COLERICK
STEVENSVILLE, MD

CONSULTANT

SMARTECH ELECTRICAL INC.
CHESTERTOWN, MD

SITUATION

Smartech Electrical's entrance sign needed to be illuminated at night. The costs to trench and run wire under a concrete pad parking lot was hindering them from installing lighting for the company sign.

SOLUTION

The sign was illuminated with (1) Solar Flood Light (SL-SFL-G2) without having to dig trenching and run wiring to the light.

RESULTS

With the new off-grid solar flood light installed, everyone can now see the company sign throughout the night. The off-grid technology of the solar flood light **"WAS THE PERFECT SOLUTION TO ILLUMINATE SMARTECH'S SIGNAGE, WHEN RUNNING POWER WAS NOT AN OPTION."** Ultimately, Smartech Electrical chose to use Solera based on its high quality products w/ high light output at costs more affordable over trenching and wiring equivalents.
