Project

Dog Park Illumination

Product and Location

Solera Solar Area Light Off-Grid

RP-SAL-30W (comparable to 250W MH)

Azilda Dog Park, Sudbury, ON – Canada

Situation

The city of Sudbury built a new dog park, but did not have enough budget dollars to run power to the popular new spot; forcing patrons to visit in the dark or with flashlights/headlights.

Solution

City workers installed two 34' poles then easily mounted 2 Solera Off-Grid Area Lights to each pole.

Results

Dog owners can now safely enjoy the park after dusk and in the pre-dawn hours.

“the area light was easy to install and convenient to program with the remote control”

– city worker

“there’s a great sense of security when I’m out alone in the park now”

– patron, dog owner

Distributor

Dixon Sudbury
Sudbury, ON – Canada
