Project

Parking Lot Lighting Improvement

Product and Location

Solera Solar Area Light Off-Grid
RP-SAL-30W (comparable to 250W MH)

Delano High School, Delano, CA

Situation

School parking lot was not adequately lit and lacked power along the perimeter. Budget did not allow for trenching and wiring to the far side of the parking lot.

Solution

15 of Solera Off-Grid Area Lights were mounted atop 15' poles that were spaced along the roadside of the parking lot.

Results

Delano High School has a brightly lit parking lot w/ zero operating cost, improving safety & security for students, faculty and visitors.

"installation was as simple as can be"

– Alex Lopez, Installer

"the Solera Solar Area Lights are performing very well for the school"

– Brian Salaz, Asst. Manager
